Captured packets

Problem: I wonder where is "Key" in pcap file.

Hint: Search in Shark Tank

Given: dump.pcap

Note: Wireshark is a network packet analyzer. Wireshark will intercept and log traffic that passes over a digital network or part of a network. A network packet is a formatted unit of data carried by a network. Further reading: https://en.wikipedia.org/wiki/Network_packet

Steps:
1) Given a pcap dump that will need to be opened in Wireshark
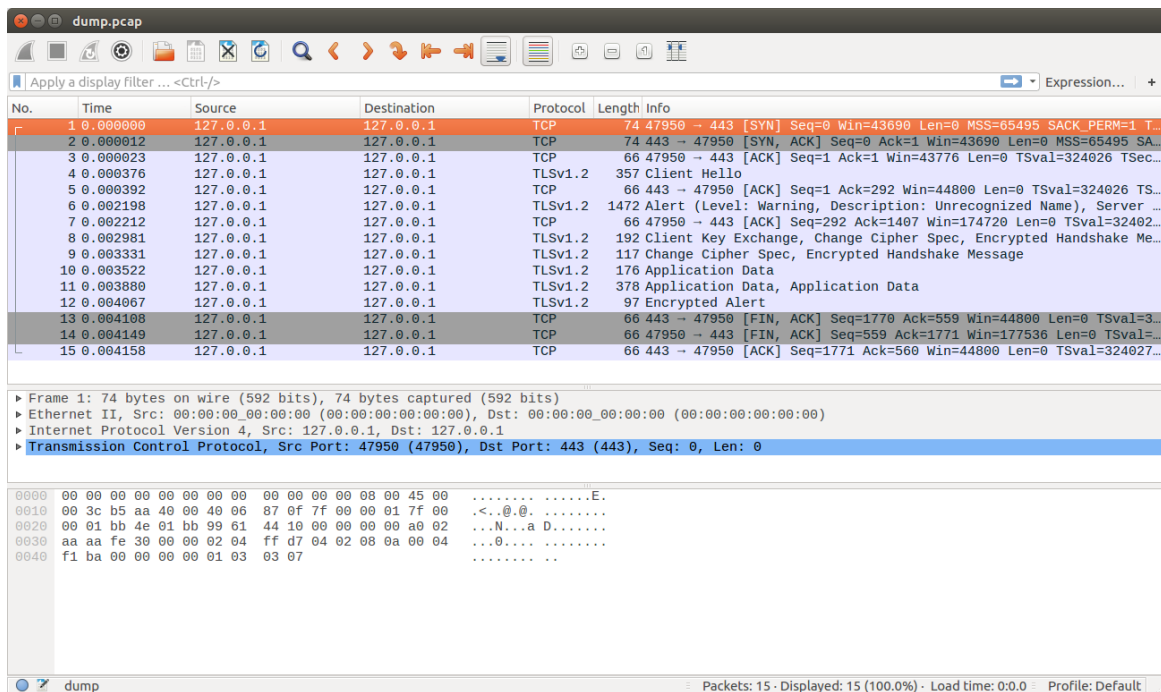

2) The problem states where is "Key" and the hint state "search in shark tank". Maybe, we need to search "Key" in the dump file.
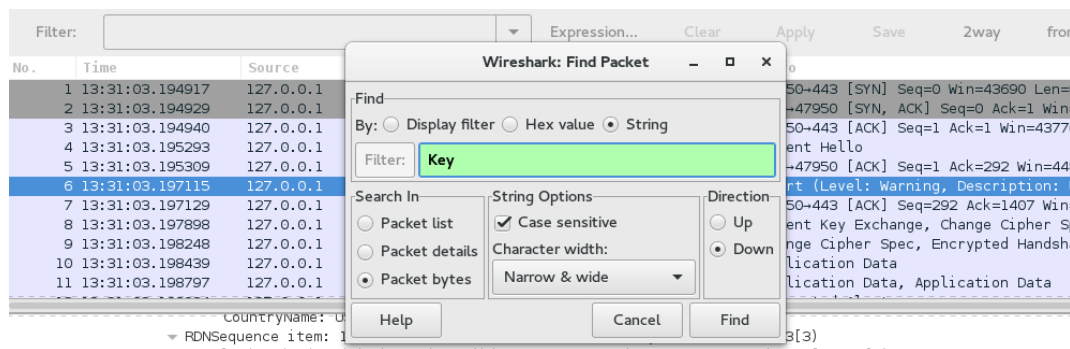

3) It ends on the 6th packet in the dump file. Double click to open that packet and then locate "Key" in the packet to get the flag...
